BODYTALK FOR ANIMALS

CONSENT FORM

I, _____ (print name), understand that the BodyTalk session provided by Kerry Emerson (Certified BodyTalk Practitioner) for my animal _____ (please print animal's name) is intended to enhance relaxation, increase communication within the areas of the body, and to educate me to possible energetic or emotional blocks that may be creating pain, discomfort or disease for my animal.

BodyTalk is non-invasive, safe and objective. It utilises the body's own innate intelligence to re-establish communication within itself.

I understand that BodyTalk is not a substitute for veterinary care or medications.
I am aware that the BodyTalk Practitioner does not diagnose illness or disease nor does the Practitioner prescribe medications. I understand the BodyTalk Practitioner strongly recommends immediate veterinarian attention for any physically based conditions with my animal.

I understand that participation in a BodyTalk session for my animal is always voluntary and that I may choose to end our participation. I understand that the safety and care of my animal is ultimately my responsibility.

I understand that payment is due at the time of service. Since the time has been specifically reserved for me, I understand that 24-hour cancellation notice is required to avoid charges for my scheduled session.

If I have any questions or concerns, I will address these promptly with the BodyTalk Practitioner.

I hereby authorise Kerry Emerson to provide my animal with BodyTalk sessions.
